

# SCALP

MICROPIMENTATION

## OUR SERVICES

### SHAVEN LOOK

SMP can conceal male pattern baldness and give you the look of a full head of shaven hair again.

### DENSITY

Scalp Micropigmentation can also create the appearance of thicker, denser looking hair.

### SCAR CAMOUFLAGE

Scalp Micropigmentation can also camouflage scarring on the scalp.

## REGAIN YOUR CONFIDENCE WITH A FULL HEAD OF HAIR

Payment plans available, contact us today for your free consultation.

CECILIA WHITTAKER

## Will the colour change?

SMP is a form of permanent cosmetics, but unlike tattooing or permanent makeup, the specialised pigment is designed to maintain the intended colour. The pigment will only lighten, not discolour over time.

## Does it look real?

Yes! We use specialised pigments & equipment designed to replicate the appearance of your natural hair follicles. Our artists colour match the pigment to your existing hair & skin tone, tailoring the procedure to suit your desired outcome; density, shaven look or scar camouflage.

## Is it Expensive?

Smp can range anywhere from \$3000 -\$5000 depending on your individual needs a consultation is recommended to get a price.

## Is it Painful?

No, Most customers say it feels like a vibration rather than a pain. Some areas are more sensitive than others
